Special Notice

Hardy Budded Northern Pecans

We have been propagating the Hardy Northern Pecans for the past three years in a limited way and getting a start of the best varieties of large size and thin shell known to be regular bearers. Some of these varieties have born twelve crops in succession.

The quality is much better than the Southern Pecan. The native Indiana Pecans are perfectly hardy. We have budded some six thousand trees the past season and expect to be able to offer a nice lot of trees in the fall of 1913.

We have a limited amount on one year budded 2 to 3 foot trees of the Indiana and Busseron varieties that we can offer for this fall at \$1.50 each. The description of some of these Hardy Northern Pecans may be found in Bulletin 251, issued by the Department of Agriculture, July 12, 1912. Any one interested should write the department for this bulletin.

NURSERY SUPPLIES

Labels, Machine Wired, per 1,000	90c
Burlap, per yard	06c
Wool Twine, 4 ply, 1 lb. balls, per lb.	08c
Tube Bale Rope, 5 lb. balls, per lb.	08c
Tared Twine in coils, per lb.	08c
Grafting Knives, each	50c
Budding Knives, Brass Lined, Ivory Tip, each	60c
Pruning Knives, each	60c

SHIPPING FACILITIES

Our packing house being located on our own side track, connected with the main lines of the B. & O. S. W., which gives us shipping facilities that are unsurpassed, so that we load direct from the house into the car, saving all exposure.

FUMIGATION

We are prepared to fumigate all stock destined **to** state requiring such. Will fumigate other stock when so required.

FEAST PROOF PACKING HOUSE AND CELLAR 124x60 FEET.

Our own side track connects with building which enables us to give personal supervision to all car load shipments.
